*THE MAGAZINE FOR WRITING IN SCOTS*
The Fraser of Allander Institute is Scotland’s leading research unit focusing on the Scottish economy. The Quarterly Economic Commentary (QEC) provides an overview of Scotland’s performance, its position relative to the United Kingdom and draws on wide experience to provide a short to medium forecast of GDP growth.

The QEC is divided into two separate sections.

In the “Commentary” section Institute members look in detail at trends and developments in the world, UK and Scottish economies. An overview and forecasts of the Scottish economy’s performance are provided.

The second half provides space for outside commentators to publish the results of work not normally submitted to contemporary academic journals. Printed articles primarily focus on Scottish issues and are accessible to non-specialist readers.

The Quarterly Economic Commentary is published four times a year. The annual subscription rate is £85.00, which includes online access. Single paper copies of an issue cost £22.50. Enquiries should be addressed to the Fraser of Allander Institute, University of Strathclyde, Sir William Duncan Building, 130 Rottenrow, Glasgow G4 0GE, t: 0141 548 3958; e: fraser@strath.ac.uk

The editors welcome contributions to the Economic Perspectives section. Material submitted should be of interest to a predominately Scottish readership and written in a style intelligible to a non-specialist audience. Contributions should be submitted to the editor.

Articles accepted for publication should be supplied electronically and conform to the guidelines available from fraser@strath.ac.uk

The copyright for all material published in the Quarterly Economic Commentary rests with the University of Strathclyde.
